Career Objective :

Enthusiastic Java Backend Developer with strong knowledge of Core Java, Spring Boot, Spring Security, Hibernate, REST APIs, and MySQL. Experienced in developing secure backend applications using layered architecture and JWT Authentication. Currently pursuing MCA and contributing to an enterprise-level Field Service Management System. Passionate about writing clean code, solving real-world problems, and continuously learning modern backend technologies.

Technical Skills:

Programming Languages: Java, SQL, Basic JavaScript

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate (JPA), JDBC, REST APIs, JWT Authentication

Database: MySQL

Frontend: HTML5, CSS3, React.js (Basic), TypeScript (Learning)

Tools & Platforms: Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse IDE

Qualifications:

Master of Computer Applications (MCA)
Noida Institute of Engineering and Technology (NIET)
2024–2026

Bachelor of Computer Applications (BCA)
IIMT Group of Colleges, Greater Noida
2021–2024

Project Profile:

Project 1: Keystone Field Service Management System

Tech Stack: Java • Spring Boot • Spring Security • JWT • Hibernate • MySQL • React • TypeScript

- Developed secure JWT Authentication and Authorization.
- Implemented RBAC.
- Built RESTful APIs.
- Integrated MySQL using Hibernate/JPA.
- Worked with Git & GitHub.
- Followed Controller–Service–Repository architecture.

Project 2: NaukriSphere – Online Job Portal

Tech Stack: Java • JSP • Servlet • JDBC • MySQL

Roles & Responsibilities:

Developed user authentication system (registration & login) using Java Servlets
Implemented complete CRUD operations for job postings and user profiles
Designed and developed responsive frontend using HTML, CSS, and JavaScript
Integrated MySQL database using JDBC for data storage and retrieval
Managed session handling for secure user interactions
Built and tested application on Apache Tomcat server
Ensured proper form validation and error handling
Used Git for version control and project management

Internship:

#Java Full Stack Developer Intern

Zidio Development

- Worked on enterprise Java Full Stack projects.
- Developed backend modules using Spring Boot.
- Collaborated using GitHub.
- Participated in Agile development practices

Strengths

Problem Solving • Quick Learner • Team Collaboration • Adaptability • Time Management

Languages

- English
- Hindi
